

EVENTS TYPE ENHANCEMENTS

Based on a request from a field user, we have instituted a couple of additions to the Event Planning section of AFRISS. While we couldn't at this time automate selections, we have added some choices to the event type listing under "Military" activities. You will now find that the following choices have been added:

Flight Chief Visit, Flight Meeting, TDY, Recruiter Training, Squadron Annual, and National Holiday

For added information, when selecting Location and querying for, the following is the quickest and easiest way in which to locate the place for the activity. In the Partial Org Name field, type the last two numbers of the Squadron - space - Flight letter - space - Office letter % Example: 41 A C% will return 41AC - EA Recruiting Office. Typing 367% will return the 367RCG. Typing 33 A% will return a choice list of all 333RCS A Flight offices.

Once loaded and saved, these activities will display on the Monthly Calendar and Daily Planner reports.
